

### Written Narrative

This rezoning requests to rezone 1751 Dobbins Drive (the “Property”) from the Residential-4 (R-4) zoning district to the Office Institutional-2 (OI-2) zoning district to allow the development of two office buildings totaling 5,000 square feet. The buildings will be one and two-stories and connected by a shared lobby. The rezoning is requested to develop permanent office space for a local company.

The buildings will be served by 16 parking spaces, 7 bicycle parking spaces, and access will be provided from Dobbins Drive. No access will be provided from the road serving Dobbins Hill Apartments. A bus stop is located at the adjacent property and employees will be encouraged to use transit.

Stormwater management will be provided through underground stormwater retention, and landscaping will be provided around the property to serve as a buffer. The underground cistern is proposed in the front of the site to design with existing topographic patterns.

The building will be two-stories tall, with large windows and a wedge-style roofline will make the structure architecturally interesting and impactful along the 15-501 corridor. Architectural considerations will allow for design of the building that will stimulate interest from 15-501 while remaining compatible with residential uses to the west and north.
