

WHEN PLAYING TENNIS OR PICKLEBALL, PRACTICE THESE SAFETY GUIDELINES:

Try to stay at least six feet apart from other players.

Do not make physical contact with them (such as shaking hands or a high five).

Play singles only.

Playing singles helps prevent incidental contact and unwanted proximity..

Tennis: Use Four Balls or Six Balls

Pickleball: Mark your balls with different numbers or names

Although unlikely, it's possible that a ball can transmit the COVID-19 virus, as virtually any hard surface can transmit the disease. So here is an extra precaution you can take to keep safe when playing tennis or pickleball:

Between points, use your racquet or paddle/foot to pick up balls and hit them to your opponent.

Avoid using your hands also when returning balls to another court.

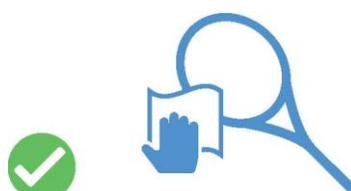

Wash your hands thoroughly or use a hand sanitizer before, during, and after play.

Open two cans of tennis balls that do not share the same number on the ball.

Stay on your side of court.

Avoid changing ends of the court.

Clean and wipe down your equipment, including racquets, paddles and water bottles.

Use new balls and a new grip, if possible.

Take one set of numbered balls, and have your playing partner take a set of balls from the other can.

Pickleball players, open two new packages of balls and mark each with different numbers or your name.

Avoid touching your face after handling a ball, racquet or other equipment.

Wash your hands promptly if you have touched your eyes, nose or mouth.

Use only your own towels and water bottles.

Avoid sharing food and touching common surfaces such as court gates, fences, benches, etc.

Proceed with play, making sure to pick up your set of balls only.

Should a ball with the other number/name wind up on your side of the court, do not touch the ball with your hands.

Use your racquet or paddle head or feet to advance the ball to the other side of the court.
